- PS

Projects

▪ Rent Atp

This was more of a start up i created back in my first year .This is basically a website that provides necessary info regarding rent houses in local areas i've used Html,css for front end and python, django for backend. (more info on my site)

▪ I clear app

This is a native app that works on both android and ios platforms, the app is mainly focused to benefit all the engineering students by having required materials to pass their exams and clear supplies .I've used flutter for UI and fire base as datadbase. (more info on my site)

▪ Zyra

It's kinda virtual assistant basically works like alexa. i made it with python and some third party libraries . it responds to voice commands and even takes notes. this is an open source project.

Soft skills

Flexibility	Versatile	Communicative
Adaptive	Polyglot	Work ethic
